For Immediate Release

FCOT revamps Alexandra Technopark to create a new campus environment

Artist's impression of Alexandra Technopark, post-asset enhancement

Singapore – 23 January 2017 – Frasers Centrepoint Asset Management (Commercial) Ltd (“**FCAMCL**” or the “**Manager**”), the manager of Frasers Commercial Trust (“**FCOT**”, SGX: Frasers Com Tr), is pleased to announce the asset enhancement initiative (“**AEI**”) for Alexandra Technopark. Estimated to cost S\$45 million, the AEI will create a new campus environment that will provide a stimulating and inspiring work environment for the working community at Alexandra Technopark. The AEI will provide Alexandra Technopark with more community-friendly spaces, a refreshed and contemporary look and greater connectivity and integration. To create a more enjoyable workplace environment, new amenities such as an amenity hub, futsal courts, exercise areas, barbeque pits and end-of-trip facilities for cyclists will also be introduced.

Strategically located at the fringe of the Central Business District, Alexandra Technopark is a high-specification development comprising two fully air-conditioned business space buildings with large floor plates of up to 76,000 square feet, which afford high degree of flexibility in space planning and configuration for tenants. The property is well-served by various modes of transportation, including the nearby Labrador Park MRT station, public buses linking to Queenstown and Harbour Front MRT stations and proximity to major roads and expressways.

Mr Jack Lam, Chief Executive Officer of the Manager, said “On the backdrop of a challenging business environment and competitive landscape for the business space sector in Singapore, this is an opportune time to rejuvenate and reposition Alexandra Technopark. In addition, with ever increasing emphasis on work-life balance, we wish to do our part as a landlord in creating for our tenants and their employees a more well-rounded and enriching environment that is more than just a workplace. They can look forward to enhanced in-situ facilities and amenities and greater variety of leisure, sports and communal activities, all set amidst a green and inviting environment.”

“The AEI is expected to boost the market profile, leasing appeal and long-term competitiveness of Alexandra Technopark, as well as elevate the tenant experience at the property. All these will ultimately increase the property’s contribution to FCOT and create long-term value for the Trust,” he added.

Asset enhancement to commence in mid-2017

Scheduled to commence in mid-2017, the AEI is expected to complete around mid-2018. To create a strong sense of arrival, the entrance to Alexandra Technopark from Alexandra Road will be accentuated with a new entrance gateway for greater prominence.

To increase space productivity, existing low-yielding spaces in the development will be relocated to create spaces with greater visibility and value, which will boost future rents and yield of the property. Approximately 20,000 sq ft of space will be relocated from Basement 1 to the ground level to create the Central Plaza, a new amenity hub that will serve as an activity node for the community at Alexandra Technopark. To be located between the two existing business space blocks, the Central Plaza will be connected to both blocks by sheltered walkways, thereby enabling greater integration and seamless connectivity all-round. Tenants can also look forward to better amenities such as a new food court, food and beverage outlets, a clinic, a landscaped roof garden and other facilities to be located at the Central Plaza.

Elsewhere within the development, additional covered walkways will be constructed to enhance connectivity for tenants and visitors. In addition, parts of the façades of the two existing business space blocks will be refreshed to complement the new contemporary image of the property. The interior common areas of the blocks, such as the lift lobbies and toilets will also be refurbished with new finishes and fittings and brightened with additional lighting. New shower facilities will be created on each floor to allow tenants to freshen up after sports and leisure activities. The lifts will be modernised with upgrading of the operating system and installation of new finishes to the interiors of the lift cars.

It is expected that tenants will be able to operate with minimal disruption during the AEI as construction works will be carried out in phases and involve primarily common areas.

A healthy lifestyle and vibrant community

Building for the community in mind and as part of the Manager’s efforts to cultivate a healthier lifestyle and to minimise environmental footprint, Alexandra Technopark will be equipped with new end-of-trip facilities comprising lockers and shower facilities and more than 150 bicycle racks for the convenience of tenants who wish to cycle to work. This is also in line with the Singapore Government’s efforts to promote a car-lite nation. Cycling paths will be built within the development to connect the Alexandra-Queensway Park Connector to Kent Ridge Park via

HortPark. Avid cyclists, joggers and nature enthusiasts will be able to enjoy Alexandra Technopark's direct access to the adjacent HortPark, which is connected to the Alexandra Garden Trail and forms part of the Southern Ridges, a 10 kilometre trail of green spaces, parks and gardens.

Certain areas within Alexandra Technopark will also be designated as car-free zones to create more communal, leisure and exercise areas. To accentuate the existing open park-like environment, more greenery will be added to enhance the development's landscape. The Manager also intends to bring in fitness-related activities and programmes to promote health and wellness among the tenants.

Another interesting new feature will be the creation of farming plots for tenants to grow their own greens to contribute towards corporate social responsibility. Tenants will also get to enjoy a myriad of other new facilities and amenities for communal activities, such as futsal courts and barbeque pits. All these will encourage greater interaction and cultivate a sense of community at Alexandra Technopark.

Reinforcing Alexandra Technopark as a choice business address

"This AEI will reinforce Alexandra Technopark as a choice business address in the Alexandra precinct. Our idea is to rejuvenate and transform Alexandra Technopark into more than just a workplace, by creating a campus where tenants and their employees can enjoy a multitude of lifestyle, wellness, social and other amenities at the doorstep of their offices. This is in line with our proactive asset management strategy to continuously improve, strengthen and add value to the properties in our portfolio," Mr Lam concluded.

IMPORTANT NOTICE

This announcement may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, (including employee wages, benefits and training costs), property expenses and governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business.

Investors are cautioned not to place undue reliance on these forward-looking statements, which are based on the Manager's current view on future events.

The value of Units and the income derived from them, if any, may fall or rise. Units are not obligations of, deposits in, or guaranteed by, the Manager or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested.

Investors should note that they have no right to request the Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on SGX-ST. Listing of the Units on the SGX-ST does not guarantee a liquid market for the Units.

This publication is for information only and does not constitute an invitation or offer to acquire, purchase or subscribe for the Units. The past performance of FCOT and the Manager is not necessarily indicative of the future performance of FCOT and the Manager.
